

Public Meeting

Notice of Community Meeting Caseload Ratios

Why? Once per year each regional center reports to the Department of Developmental Services in a prescribed format, detailed information on the number of service coordinators currently working.

Based on the information given to the Department of Developmental Services Far Northern Regional Center was found not to be in compliance with caseload ratio requirements of Welfare and Institutions Code Section 4648 ©.

This meeting is to be held to gather input regarding our plan. If you have ideas that might improve the situation please feel free to join the Zoom meeting to share your ideas or submit written comments to:

Far Northern Regional Center
